

To our clients, partners and friends:

Happiness - a strong word that brings so much meaning to what we do at Myface.

It's all about this feeling, bringing it to our clients and also being happy while doing it.

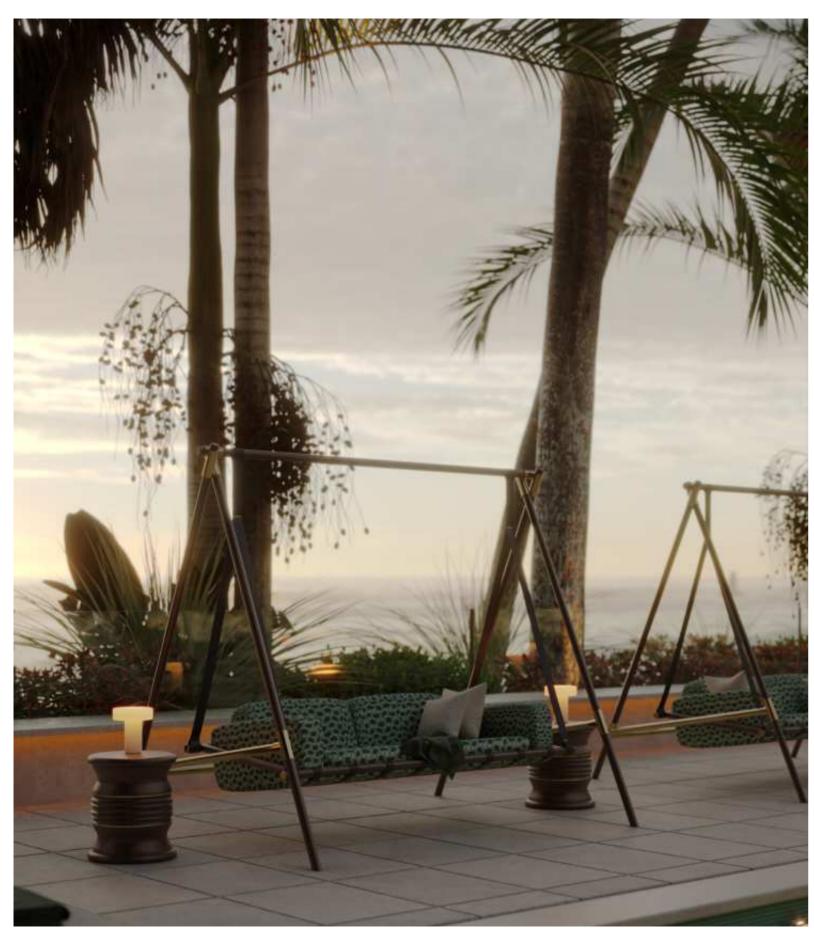

Experiences are one of the greatest sources of happiness, and the main way to understand and reach the minds of those who empathize with our mission.

Having such a big purpose, opens doors and allows us the chance of making the difference in the outdoor world.

But how do we fulfill this purpose? Having solid roots, a committed team with shared visions, and of course, distinctive designs with premium quality. Along with the constant search for evolution and improvement, this is how we long to pave our path and bring the comfort and sophistication of the indoors to premium and seasonless outdoor spaces worldwide.
