

MATERIALS CATALOGUE

myface

Strong and authentic materials,
designed to stand out.

Our commitment to excellence starts with our materials.

We believe that every piece of furniture should be a masterpiece, a testament to both elegance and durability. That's why we design furniture that not only transcends style but also stands the test of time.

Our passion for premium materials is at the core of what we do and each creation is born from the finest materials.

At the foundation of our materials are stainless steel, aluminum, marble, acrylic and outdoor fabrics and leathers. In terms of finishes, we offer an extensive selection of platings and lacquers to enhance and refine the design of each furniture piece. We have rigorously selected and tested these materials, including subjecting them to UV exposure and laboratory assessments. Additionally, our finishes are treated with a special coating to ensure they withstand even the harshest outdoor conditions. This meticulous evaluation has enabled us to gain a deeper understanding of their inherent characteristics and to impart them with essential attributes for outdoor use, such as resistance to UV radiation, water, mold, mildew, corrosion and stains.

Besides the assured quality, our products are also accompanied by a warranty, which enhances even more our relation with our clients and our commitment to their ultimate satisfaction.

A legacy of superior materials, timeless design and the utmost comfort.
