ORIZON

Orizon is a collection born from light. Each piece is designed to engage with the sun, smooth curves and metallic accents capturing light throughout the day. From morning to dusk, the forms come alive, casting shadows and revealing contours. Inspired by the timeless vision of Hans J. Wegner, Orizon reimagines the relationship between form and function with a contemporary gaze. Here, light isn't just a detail – it's part of the design.

Orizon is the line where the day begins and ends. A place for pause, but also for rhythm and quiet contemplation.

MATERIALS AND FINISHES

Our commitment to excellence starts with our materials. We believe that every piece of furniture should be a masterpiece, a testament to both elegance and durability. That's why we design furniture that not only transcends style but also stands the test of time.

Our passion for premium materials is at the core of what we do and each creation is born from the finest materials. At the foundation of our materials are stainless steel, aluminum, marble, acrylic and outdoor fabrics and leathers.

In terms of finishes, we offer an extensive selection of platings and lacquers to enhance and refine the design of each furniture piece. We have rigorously selected and tested these materials, including subjecting them to UV exposure and laboratory assessments. Additionally, our finishes are treated with a special coating to ensure they withstand even the harshest outdoor conditions.

This meticulous evaluation has enabled us to gain a deeper understanding of their inherent characteristics and to impart them with essential attributes for outdoor use, such as resistance to UV radiation, water, mold, mildew, corrosion and stains.

Besides the assured quality, our products are also accompanied by a warranty, which enhances even more our relation with our clients and our commitment to their ultimate satisfaction.

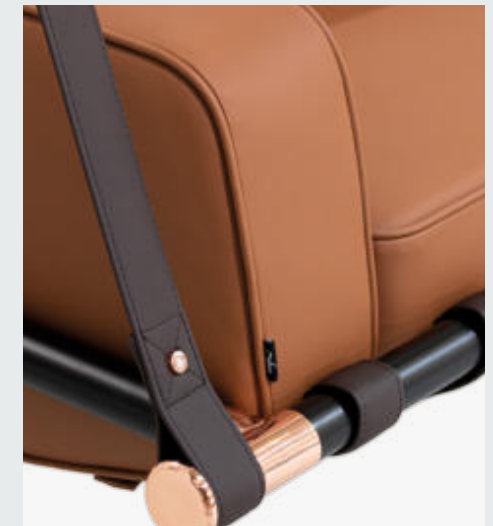

A legacy of superior materials, timeless design and the utmost comfort.

STANDARD UPHOLSTERY

To guarantee the comfort and design of our products, we use high resilience foams with high rigidity in all upholstered products. In addition to the comfort we strive to give our products, we use foams that guarantee great water drainage capacity, increasing the product's durability.

WATER-REPELLENT TECHNOLOGY APPLIED TO UPHOLSTERY

Myface combines foams with waterproof protections and breathable nets, guaranteeing water drainage and the durability of the seat.

MOISTURE-FREE AND DRY UPHOLSTERY

Myface guarantees the concept of high waterproofness by applying PVC coatings to the entire upholstery and breathable nets on the underside of the seat, so that the foams can fully function. In this way, water is repelled and the product breathes, preventing any creation of mold, thus increasing the product's lifespan.

This use of cutting-edge techniques and materials means that all Myface products are resistant to any weather conditions.
